RELEVANT EXPERIENCE

FREELANCE WEB DEVELOPER, CREATIVE CIRCLE, DEC. 2011 – PRESENT

LEAD DEVELOPER, IDEA BOX MEDIA – 2009 TO DEC. 2011

Developed new web sites for various corporations and small businesses using HTML, Javascript and PHP. Developed websites on WordPress to give clients the ability to update their own website content. Lead various large and small scale projects including eCommerce, website planning/design/development, marketing campaigns (Email, Pay-per-click, Social Media, Direct Mail) and Infusionsoft CRM quick start services and integration. Designed custom logos and graphics to develop brand.identity. Collaborated with other designers and developers to bring projects to fruition.

IN-HOUSE IT/WEB DEVELOPER, WUICH MECH. SVC – 2007 TO 2010

Fullfilled the role of the technology jack-of-all-trades, including networking of PC's at location, Phone system and workstation setup and support, software and hardware upgrades and updates. Designed and maintained the company website and database. Designed and produced all company marketing collateral (Business cards, flyers, newspaper ads - all sizes up to full page, brochures, training material/handbooks, coupons, road signs, back-lit large scale storefront signs, billboards). Built and maintained custom web app that helps track and re-stock technicians truck inventory. Built and maintained custom web app that receives and confirms technicians service calls by integrating customer database from Quickbooks and SmartService scheduling software to email appointments from MS Outlook and convert to SMS so technicians can correspond with dispatcher via text message.

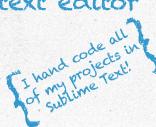

GRAPHIC DESIGNER, PICTUREITLIT – 2004 TO 2007

Received images from clients to be retouched (color correction, blemish removal) and reformatted images to be printed on backlit media. Operated 24in and 48in epson printer with a variety of different media. Maintained company website and email.
